I have just bought a used car from Stebbings Car Superstore, who are a big [used car supermarket in Norfolk](#)

. Car Supermarkets are responsible for around 7% of all used cars sold every year in the UK. Car supermarkets are often referred to as car hypermarkets as they are much larger than independent car retailers and franchised garages. Car Supermarkets are the ideal car dealer to visit if you are undecided as to your next car purchase. You are not restricted to viewing and test driving one brand but can view say Citroen, Vauxhall, VW, Audi, Mercedes, BMW and Ford all at one location.
